# Stadtrad Innsbruck for students of the MCI

The Student Union at MCI has made an agreement with IVB for the use of “Stadtrad Innsbruck”. MCI students can now use the Stadtrad Innsbruck rental bike system at a special rate, with the current annual fee not being charged. With the advantage tariff, borrowing a Stadtrad is free of charge for the first 30 minutes of each journey. After 30 minutes the user fee depends on the time of rental (Preferential tariffs: <https://www.stadtrad-innsbruck.at/en/>).

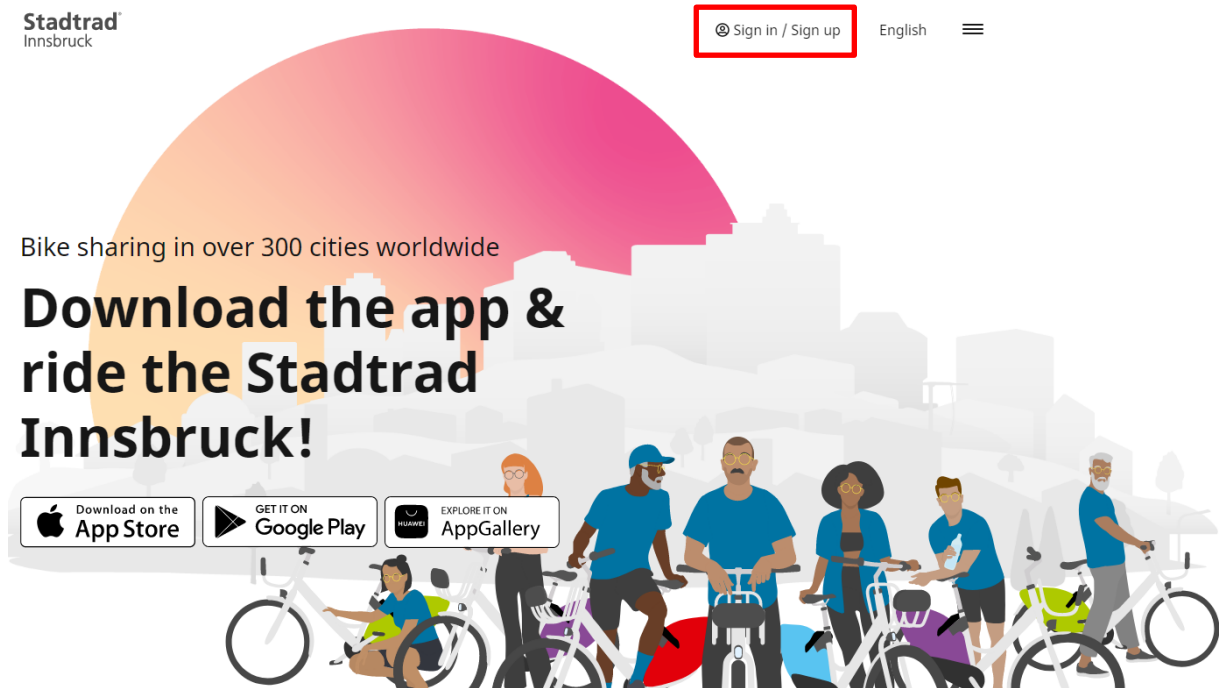

To take advantage of not paying the annual rate, you need to register as a regular user of Stadtrad Innsbruck according to the following instructions: <https://www.stadtrad-innsbruck.at/en/account/registration>.

Rental bikes of Stadtrad Innsbruck can be rented and returned via the nextbike-app or the hotline (T +43 512 908069). A short instruction on how to rent the bikes via the nextbike-app is shown in the following pictures:

#### Using Stadtrad Innsbruck

Open the App. Press the "Rent Bike" button. Scan the QR-Code at the back of the bike. Confirm and enjoy cycling.

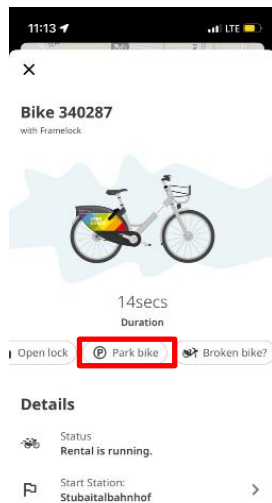

#### Returning Stadtrad Innsbruck

After arriving at a Stadtrad Innsbruck station, you only must close the lock on the rear wheel. For your convenience and confirmation, you will hear a short beep. The return of the bikes at our Stadtrad Innsbruck stations is mandatory. A service fee of € 20,- will be charged for a return at a random location.

If all the bike racks at a Stadtrad Innsbruck station are occupied, you can simply park your bike right next to the station and return the bike there.

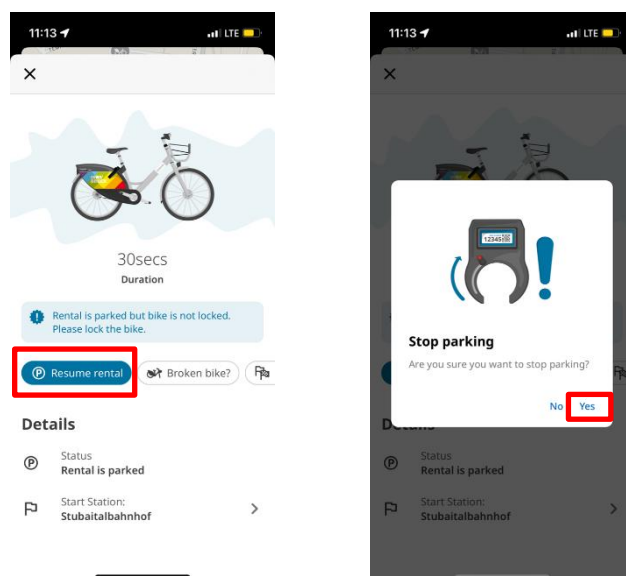

## Taking a break from riding

Stadtrad Innsbruck offers you the possibility to park your bike in your rental and continue riding after a short break. To do this, you need to open the app, go to your current rental, and use the "park bike" function. It is important that you apply this mode first and then close the lock of the bike. Your rental will continue, but the bike cannot be used by other customers.

## End Park Mode

If you want to continue the ride again, go to "Continue loan" in the app - the frame lock will open automatically.
